

Owners Corporation Manager support structure.

While your Owners Corporation Manager oversees all aspects of managing the Owners Corporation at your property, they are never alone in doing so.

The Knight provides extensive support to our Owners Corporation Managers to ensure their workload is achievable, and that our clients are always able to access leading levels of service.

This also means that should your Owners Corporation Manager change, the additional layers of support retain their knowledge and experience of your property, and all matters are seen to seamlessly.

Your Owners Corporation Management Team.
